

Jeff Gough, Managing Director – Liverpool Glass

Your Property's Image, Value and Security

'Servicing Sydney with Quality Australian Products for over 35 years'

Welcome to Liverpool Glass Company where my team of glass experts and I can help you with everything from a shower screen, mirror, table tops and shop fronts to the repair work you may need from time to time. Whether it be 1 o'clock in the morning or 10 o'clock at night, you won't get a computer answering service here. We will personally answer the phone and any questions you may have and, yes, we will come out and secure your premises whether it's the home, shop or office for the purpose of fingerprinting and/or replacement of glass next day as needed.

provide an audit on your building, shop or office to ensure your building is secure and adheres to current Australian Safety Standards (AS1288-2006).

When it comes to our clients we give them exactly what they want. We provide clients with guidance on the correct products for them whilst maintaining safety standards for them and their staff/families. We are a company that strives for continual improvement and our many happy clients are a testament to our efforts.

So for your next job that requires glass, call the glass specialists and get the job done right the first time! 

We aim to please and can carry out most repairs on a same day service Policy (with the exception of some specialty products that may need to be ordered).

We have a general rule of thumb that requires us to be on your door step within 1 hour of your first call. Being centrally located to the M5 and M7 enables us to provide you this level of service. Our friendly professional teams of experienced trades people are able to schedule installation of your glass products at a time that will have the least impact on your day to day business. Our prompt services gives clients comfort in the knowledge that things are underway. We also keep you, our clients, fully informed throughout the process from start to finish all at a realistic price.

It's so simple that we can with just a few questions give you the information and price over the phone before we attend to your needs in person, allowing you to make a fast, informed and easy decision.

In recent times it has been difficult to source a complete range of quality replacement glass. But with our expanded range of suppliers we are able to have a good crack at matching more of the old obscure patterns enabling shopkeepers, business owners and landlords a greater chance of replacement matches thus saving them money.

Integrity and image of our business

Since taking over this business in July 2007, we have built a reputation based upon excellence in customer service, providing quality products at affordable prices with staff that prides themselves on good old fashioned honesty, integrity and a job well done.

Security

A poorly fitted and damaged glass structure is an open invitation to unwanted guests for any business. Many landlords and tenants fail to consider their glass walls and structures when considering their security; we can
